TABLE DES MATIÈRES/CONTENTS

From milk nutrients to health: an update

Lipids

- Recent knowledges on saturated fatty acids: a better understanding
LEGRAND P. **p. 351**

- Myristic acid: from physiological role to atherogenous effect
DABADIE H. **p. 355**

- *Trans* fatty acids: state of the art
MENSINK R.P. **p. 365**

- Conjugated linoleic acid isomers (CLA): good for everything?
MURRU E., ANGIONI E., CARTA G., MELIS M.P., BANNI S. **p. 371**

Proteins

- Milk-derived bioactive peptides and proteins: future perspectives
LÉONIL J., MAUBOIS J.-L. **p. 383**

- Protein quality and FAO/WHO recommendations
TOMÉ D., BOS C., MARIOTTI F., GAUDICHON C. **p. 393**

Calcium

- Nutriment and osteoporosis: is calcium enough?
BONJOUR J.-P., AMMANN P., CHEVALLEY T., BERTIÈRE M.-C., RIZZOLI R. **p. 409**

- Hypertensive cardiovascular disease: risk reduction by dietary calcium and dairy foods
McCARRON D.A., REUSSER M.E. **p. 415**

Lactose

- Lactose maldigestion vs. intolerance
SAVAIANO D.A. **p. 425**

■ en anglais

- Lactose intolerance: the medical point of view
MARTEAU P., MORALES E., VESA T., KORPELA R. **p. 431**

How to influence nutrient contents of dairy products?

- Development of dairy-based functional foods
STANTON C., COAKLEY M., MURPHY J.J., FITZGERALD G.F., DEVERY R., ROSS R.P. **p. 439**

From dairy products to health: a new insight

Obesity

- Calcium, dairy products and weight control
ZEMEL M.B. **p. 451**

Cancer

- The role of lactoferrin in cancer prevention
BELZEN van N. **p. 461**

Coronary heart disease

- Genes, lipids and cardiovascular diseases: nutrigenomics and nutrigenetics
JUNIEN C. **p. 471**

From dairy products to health and nutrition information

- Food labelling and claims as an educational tool: experience from Thailand
KONGCHUNTUK H. **p. 491**

- Labelling and claims in Europe
MARTIN A. **p. 501**

- The impact of nutritional labels and health claims on consumers' diets
NAYGA Jr. R.M. **p. 507**
